Computer Science and Engineering
GLA University, Mathura Uttar Pradesh
CGPA – 7.88

INTEREST

- Apart from being a software engineer, I enjoy most of my time being outdoors. I love to travel whenever I got enough time. I enjoy free climbing and tracking.
- When forced indoors, I follow a number of sci-fi and fantasy genre movies and television shows, I am an aspiring chef, and I spend a large amount of my free time exploring the latest technology.

PROJECTS

HSBCnet Information Services
(Sep 2019 - Present)

- Web based application (HSBC) used by commercial users. Applications are used for all commercial banking services like **Shared Services**, **Information Services** and **Transaction Services**.
- Created a maintainable automation framework by using **Java**, **selenium** and **cucumber** for different HSBC domain tools in all services.
- Responsible for understanding the Banking Application and creating proper stories.
- Uploading the test case on JIRA and coordinated between connected teams for its quick resolution.
- Responsible for running the automation pack for Regression testing in efficient ways.
- Responsible for maintaining and fixing the automation script for every release.
- Worked on Critical issues and provided Root cause analysis to further enhance the operations.
- Designing the training plan to provide different scenarios and technical guidance to the workgroup.
- Ensuring committed delivery dates are met with quality within the workgroup.
- Handling the issues from technical perspective and own them to deliver in time.
- Gained proficiency in understanding & mapping client requirements & enhancements for the product and providing technical solutions to the clients.

CERTIFICATION

- Oracle Certified Associate, Java SE 8 Programmer (OCA) – *Sept 2019*
